GUARANTEE & REGISTRATION FORM

MAT & CABLE WARRANTY

All our heating cables are manufactured using state of the art technology. As our manufacturing standards in our factories are so comprehensive, we are able to offer our lifetime guarantee against faults caused by manufacturing defects, provided that they have been installed in accordance with the installation instructions and with all necessary electrical regulations. The warranty covers the cost of replacement or repair of the heater, at the manufacturer's discretion, and precludes any claim for consequential damages.

THE WARRANTY IS SUBJECT TO THE FOLLOWING CONDITIONS:

1. The product's attached registration form must be completed and returned within 28 days of purchase.
2. Proof of purchase will be required in the event of a claim.
3. The heater has been installed strictly in accordance with the installation instructions, is correctly earthed and protected by an RCD Residual Current Device.
4. The heater has been installed in conjunction with a LAVA timerstat control or equivalent control system.
5. The warranty is void if the heater is damaged during installation or tiling. It is therefore essential to carry out the tests on the heating cable as detailed in the instructions periodically during the installation and tiling.
6. The Guarantee is non-transferable.
